

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Peter Weber
DOCKET NO.: 03-22418.001-R-1
PARCEL NO.: 08-32-326-015-0000

The parties of record before the Property Tax Appeal Board are Peter Weber, the appellant, by attorney Rusty A. Payton of the Law Offices of Rusty A. Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property consists of a 22-year old, two-story frame dwelling containing 2,264 square feet of living area with a partial, unfinished basement, central air conditioning, a fireplace, and a two-car garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted a grid analysis detailing four suggested comparable properties. On the appellant's map, the comparables are located in close proximity of the subject property. The comparables are two-story frame dwellings that are 17 to 33 years old. In the grid analysis, the appellant identifies one of the comparables as a one-story dwelling, but the photograph of this comparable indicates that it is a two-story dwelling. One of the comparables has a partial basement, and three do not have a basement. Two comparables have central air conditioning, and one has a fireplace. Information on garages was not disclosed, but photographs supplied by the appellant indicate that each comparable has a two-car garage. The comparables contain 2,088 to 2,445 square feet of living area and have improvement assessments of \$8.43 to \$9.23 per square foot. The subject property has an improvement assessment of \$11.06 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	5,360
IMPR.:	\$	25,037
TOTAL:	\$	30,397

Subject only to the State multiplier as applicable.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing three suggested comparable properties that are located in the same tax block as the subject property. The comparable properties consist of two-story frame dwellings that are 19 or 20 years old. Each of the comparables has a partial, unfinished basement, central air conditioning, a fireplace, and a two-car garage. The dwellings contain 2,127 to 2,292 square feet of living area and have improvement assessments of \$11.11 to \$11.84 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is not warranted. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of seven equity comparables. The appellant's comparables one, two, and three differed in foundation from the subject and received reduced weight in the Board's analysis. The appellant's comparable four and the board of review's comparables were very similar to the subject in location, age, and physical characteristics. These four comparables had improvement assessments of \$9.23 to \$11.84 per square foot and support the subject's improvement assessment of \$11.06 per square foot. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is supported by the most comparable properties contained in the record and a reduction in the subject's assessment is not warranted.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has not adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board are subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
